Subject: [External] concerns about AI
Date: Tuesday, March 4, 2025 8:21:14 PM

Hi,

As a psychologist who deals with protected health information, I am deeply concerned about the use of AI note taking services or AI recordings of sessions, due to the risk of this information being hacked and released in some capacity or used as a form of blackmail. I am further concerned about the use of AI mental health chat bots and these risks.

Thank you for hearing me out.

Adam Formal
