CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

AI has no reason to do well, be accurate, or improve beyond what prompts it's fed. Nor can it be held accountable when things go wrong. Letting AI create and letting it be unattended can lead to disastrous consequences or results.

We already have AI impersonating real people, AI writing hate speech, and AI already in the market using content from other creators.

AI is a dangerous waste of time and serves no purpose but more trouble.
