CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I am writing to express a stance **firmly against** the AI Action Plan outlined on Document Number 2025-02305.

As an artist and a writer, artificial intelligence does nothing to benefit me, and has been used to directly profit off of my work and the work of my peers with no compensation or even recognition for the labor we put in. The technology is also nothing but overhyped smokescreens, incapable of producing work that has any real value to our society. Its only utility is in generating empty slop and giving additional profit to the wealthy. It erodes the critical thinking of our population, it fills the internet with meaningless junk, and it wastes massive amounts of precious energy resources in doing so.

Please, please do not remove the only protection hard-working creators have against our livelihoods being taken away.

Thank you,
Alexa Farley
