Subject: [External] AI Action Plan
Date: Saturday, March 15, 2025 9:52:49 AM

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

There is ZERO need for any enhancement to or use of AI moving forward, regardless of what the "so-called" President or his billionaire lackeys claim.

AI is the single-most destructive force created, thriving on blatant theft and corruption of works of true human creativity. Generators of AI content spell the end for imagination, thrusting this country into a dead land of poor images, wretched writing, and false video productions. Absolutely no good comes from these "leaders" trying to authorize additional theft of intellectual - and copyrighted! - material.

I am both an artist and a writer, and every day, I am forced to take additional steps to protect my work from unscrupulous AI scrapers. The hours, days, weeks, months, and YEARS I put into my drawings and writing do not belong in a soulless generator that will render them into something less than intelligent and coherent. My work is NOT for these companies to rate and then profit from!

AI is banned from copyright for a reason: Because it is NOT original work! It is the product of obscene laziness and BLATANT STEALING from people with genuine work ethics and talent. Our work was not made for the rich and lazy to make a profit from!

This Action Plan should be terminated IMMEDIATELY. It spells the end of human inspiration and creativity. Tens of thousands of people will find themselves without basic needs, unable to compete with the speed of AI. To say nothing of the dumbing down of the American public, forced to subsist on worthless gibberish provided by machines without any ACTUAL intelligence, soul, or emotion.

Artists and writers deserve PROTECTION from these uncharged, rampant, careless thieves. We should not be forced to lose income or credit from our work!

Allowing this Plan to move forward would spell the end of humanity in this country. I, for one, refuse to see the world children inherit be one of unfeeling robots.

I refuse to accept this Action Plan, and I want it revoked.

Humans should be FIRST on any political agenda. Not machines.

Sincerely,
Andria Kennedy
