CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

AI has no business being trained by copywritten material nor does it have any reason. It is not necessary to train any artificial intelligence on a human's work. It is a gross misuse of both the technology and the work of the human being(s) who is/are responsible for the work. The allowance of this to continue is gross reach akin to theft.

This is not acceptable by any means.
