Subject: [External] AI Action Plan
Date: Saturday, March 15, 2025 11:54:19 PM

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

What the market is currently calling AI is only a sophisticated large language model. It cannot innovate. It should never be used for anything that affects the lives of anyone for better or worse, and AI companies should not be allowed to scrape copyrighted work.

Be smart about this, recognize AI has a long way to go before it has valid use-cases in decision chains, and at the moment it's simply burning up electrical energy to no useful end.
