CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Generative AI is an incredible waste of energy and resources like water and electricity while profiting off of the theft of others' hard work. I don't feel it has a place in America and is being hyped up because it's become a buzzword people just throw around.

All e-mails to and from this account are for NITRD official use only and subject to certain disclosure requirements.
