Hello,

My name is Ashra Londa and I am writing as an individual.

My comments and concerns about AI Use are as follows:

Copyright

AI is not following copyright rules at this time. This loophole does not recognize the copyright holders whose items are being fed into AI generators. Such a trespass is highly concerning and should be considered illegal.

Energy Use

AI Generation consumes a large amount of energy. AI use should be regulated, moderated and restricted with this issue in mind.
