To whom it may concern:

My name is CJ Bernstein-Feld. I am 39 years old and a lifelong, legal citizen of the United States. I have spent a lot of my life on the internet, admiring and appreciating the works of countless artists and writers, both professional and amateur. I myself am an amateur writer with dreams of someday publishing a novel.

In recent years it has come to my attention that AI learning models have been scraping copyrighted works from some of those very same artists and writers I have admired online. These communities have expressed their displeasure at having their intellectual property stolen without their permission and without any recompense.

I do not support OpenAI and I do not support their infringement on artists, writers, and other creatives. OpenAI should be held to the same standards and copyright laws as anyone else-- theft is theft.

Thank you for your time.
