Hello,

It is my strongly held belief that this plan is unnecessary and overtly invasive on the personal rights and well being of every American citizen. I encourage this plan to be stopped and completely scrapped. I believe restrictions should be placed upon the development of artificial intelligence, in order to ensure that the privacy of every american citizen is respected. restrictions should include bans on the collection and use of data not gathered with the explicit and enthusiastic consent of the party the data is being collected from. This document is approved for public dissemination. The document contains no business-proprietary or confidential information. Document contents may be reused by the government in developing the AI Action Plan and associated documents without attribution.

Sincerely,
Daniel Jacobs
