CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

This document is approved for public dissemination. The document contains no business-proprietary or confidential information. Document contents may be reused by the government in developing the AI Action Plan and associated documents without attribution.

Granting OpenAI and other AI companies immunity from lawsuits due to copyright infringement defeats the intention of copyright to give people an incentive to create by ensuring that they receive compensation for use of their work. If an AI company can resell your work so long as they launder it by first feeding it into a "generative model" and then regurgitate it as output, then that incentive to create will be greatly diminished.

David Hinds
