Hello,

I've recently heard about the AI action plan and am personally concerned. I believe this document will do harm and would like for it to not pass.

On the greater subject of AI usage, I personally find it harmful to not just artists, but any person in general. It does not have the capacities that regular human artist have in creating things, and never will.

This document is approved for public dissemination. The document contains no business - proprietary or confidential information. Document contents may be reused by the government in developing the AI Action Plan and associated documents without attribution.

Have a good night,

Donovan
