CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Giving more power to AI corporations will introduce mass theft into any industry AI touches. Power will be taken from inventors and creatives, and be given to slackers that profit off of other people's hard work. If not for moral reasons, this is a bad idea because jobs are being cut in exchange for more wasteful use of expensive to maintain technology that will end up costing more than it would to continue hiring inventors, developers, artists, writers, etc.
