Subject: [External] AI Action Plan

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

AI cannot be allowed to train on copyrighted material. It would be the same thing as a human plagiarizing a school paper. It will also become even harder to detect a "deep fake" photo or video, and there is enough fake news out there to begin with.

Not only that, but it has the potential to take people's jobs away, replacing them with machines.

Thank you.
