CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

This AI Action Plan is a disaster. Allowing AI to use materials regardless of copyright status puts millions of Americans at risk of losing security and jobs. People aren't as interested in AI as many corporations think. The masses will become jaded and angry, potentially resulting in violence. This will only be exacerbated by the jobs lost to AI. Generative AI does not hold a place in America's future.
