Hello,

My name is Jackson Bailey, I have been a California citizen of the US for my entire life, and I have an active role in the artist community, as well as the general populace. I am in full support of the plan for the Biden-Harris AI [Executive Order 14110](#) executive order of 14110 created on October 30, 2023 (Safe, Secure, and Trustworthy Development and Use of Artificial Intelligence), which limits the private sector's ability to innovate in AI by imposing government requirements restricting private sector AI development and deployment. Please understand that AI, despite being around for over a year now, has proven to be completely useless in the eyes of bettering humanity. Generative AI does not help anyone. It does not create anything helpful, it does not prevent catastrophes, it does not do anything constructive to the human condition. It is a mass imitation of our artwork, and of copyrighted materials. I oppose executive order 14179, signed by President Donald Trump on January 23, 2025. DO NOT LET THIS GO THROUGH, PLEASE. THIS HELPS NO ONE. [Executive Order 14179](#)
