I do not approve of bypassing the AI restrictions placed by Former President Joe Biden. If this passes through, it will encourage companies to replace workers with AI all for the sake of keeping profits to themselves. Voice actors, animators, and artists have been fighting against this trend because it means a lot of workers will be losing their jobs. Workers already have to deal with poor treatment from their higher-ups as it and seeing AI restrictions be bypassed means lack of quality control on various products, which will discourage consumers from ever buying whatever products are being produced.
