CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Granting the request made by Alphabet and OpenAI will create potentially fatal burdens on America's creative economy, risking our greatest cultural export at a time when other markets like China are looking to not only develop their own theatrical markets but create a global entertainment industry of their own. It will destroy all copyright law and leave countless artists open to having their work exploited and stolen. It must be staunchly opposed.

J.F.
