Subject: AI Action Plan

Ref.: Request for Information

<https://www.federalregister.gov/documents/2025/02/06/2025-02305/request-for-information-on-the-development-of-an-artificial-intelligence-ai-action-plan>

"This document is approved for public dissemination. The document does not contain confidential or commercially proprietary information. The content of the document may be reused by the government in the development of the AI Action Plan and related documents without attribution."

Reason for your request:

Through this Request for Information (RFI), the OSTP and the NCO of NITRD are seeking public input, including from academics, industry groups, private sector organizations, state, local, and tribal governments, and any other interested parties, on the priority actions that should be included in the Plan.

Requested Topics of Interest:

"Hardware and chips, data centers, energy consumption and efficiency, model development, development, application, and use of open-source code (whether in the private sector or by the government), explainability and assurance of AI model outcomes, cybersecurity, data privacy and security throughout the lifecycle of AI system development and implementation (including protection against AI model attacks), risks, regulation and governance, technical and security standards, national security and defense, research and development, education and workforce, innovation and competition, intellectual property, acquisitions, international collaboration, and export controls."

Response:

We have a large dataset of stakeholders who are interested in the outcome of your request for this RFI, once it has been processed by the respective entity, in accordance with its policy. Could you send us any catalog for dissemination purposes?

We subscribe to your distributions.

"I am a professional with diverse skills in content creation, urban photography, and a strong background in economics and political science. I have experience as a commentator in articles for *El Tiempo* and currently lead my own firm, GP&LIFE, in Bogotá. I specialize in regional and

municipal development, as well as promoting innovation and technology, including artificial intelligence. I am committed to excellence and always looking for new opportunities to apply my knowledge in the digital and business fields.

Native language: Spanish and knowledge of English.

Content Creator and Urban Photographer | Economist and Political Scientist

Affiliated with the Bogotá Chamber of Commerce

Affiliated with the Virtual Labor Academy

Contact: University of AI for Entrepreneurs."

Sincerely,

JOHN C. ALBERTO MORENO Q.
