Subject: [External] AI Action Plan - Regulate AI to the utmost extent
Date: Sunday, March 16, 2025 1:23:14 AM

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hello to whoever it may concern,

The page on the Federal Register about the AI Action Plan states that it aims to remove barriers to the development of AI. This means copyright, as companies like OpenAI have long since been developing off of databases of artwork made by artists and have already been facing trouble for it. Theft, and AI, have no place in the future of the United States, it is stealing from the incomes of millions of Americans, the environmental impacts will steal from the futures of our children, and is a transparent bid to exploit and undercompensate those of creative industries.

Thank you for your time and consideration.
