Subject: [External] Don't allow OpenAI copyright immunity
Date: Sunday, March 16, 2025 3:24:14 PM

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hey there, I'm sending this message to kindly ask the government to deny OpenAI or any other generative AI companies' plea to achieve further development and immunity to all lawsuits regarding copyright infringement. The reason why I'm saying this is because those generative AI companies will steal any creative thing that is or isn't copyrighted and make lazy, soulless versions of whatever they want and get away with it due to you (the government) allowing these companies to run rampant because some people think it the future of technology, but it's actually stealing other people's creativity and claiming it as your own. To reiterate, I kindly ask the government to not allow OpenAI to be immune to all lawsuits regarding copyright infringement because it will allow them and any other generative AI company to steal any art, writing, and voice that belong to different people and make copyright infringing stuff out of it. So would you kindly do that for the greater good of society please.

--

Sincerely

Kellen M.
