I sorry I didn't give you any notice of this but I wish you could understand what I just went through with my local Utica police station and I drove there and asked them if they could protrol the area tonight 2/2824 because I've seen unaware issues. I told them what happened and what I've been going through past 4yrs with there community. I never felt so unworthy and I shed some tears explaining what and why I needed their assistance and if he would have a look at the phone what's going on and effecting our world at this point. He yelled at me and said I don't want to get into your politics which I felt like I was just nothing to the community and the family had the same issues. I would please like to address this Utica police station when I was asking for help they didn't want me to even know what me and family felt about the situation and say some comforting words to at least give me some relief and make it a better night to putrol my area closer tonight I said to him a few words that we acceptable.
