CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I am writing to urge against enacting the AI Action Plan. This plan would allow major tech companies to steal the work and intellectual property of citizens. Why would an individual create new ideas if AI can then swoop in to use it without consequence? We have copyright for a reason, and AI should not be allowed to bypass those rules. If AI companies want to use that material, they can license it and pay for it. Anything else is theft.
