Subject: [External] The AI Action Plan must respect intellectual property rights
Date: Sunday, March 16, 2025 12:21:27 AM

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

The summary I read of the plan says it is to "ensure that unnecessarily burdensome requirements do not hamper private sector AI innovation" - you mean the wholesale theft of art and literature, right? Those are the burdensome requirements?

If an industry needs to rely on massive-scale copyright infringement to exist then maybe it doesn't deserve to exist.
