Subject: [External] AI Action Plan - NO TO AI
Date: Friday, March 14, 2025 7:38:12 PM

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hello,

My name is Lynn Le and I am against Executive Order 14179. As a creative, there is no benefit to use AI. I don't find what's good about it when it's stealing from creatives and uses a lot of resources to create regurgitate unoriginal ideas.

What this does is create an environment where companies will happily fire creatives and replace them with AI if it means to save "money." Because of this, it's poisoning the environment, leaving thousands of creatives without jobs. Fellow colleague have expressed they've been without an animation job for over 3+ years. What can we do to help this situation and create a sustainable and thriving place?

The people want that human element when they engage in any creative medium. There is such a backlash against AI and people in power are not listening to us.

Please reconsider this as this will be hurting everyone.

Thank you,
Lynn
