- I hate AI and I don't want it
- I do not believe AI holds a place in the future of the US
- AI steals from my livelihood as an American and profits off of theft
- AI is overhyped and is fleecing the American public / AI is a speculative market similar to cryptocurrency and NFTs, with false promises to fool the public and huge legal problems by enabling them
- AI has huge data security concerns
- AI makes products look cheaply made and discourages people from those products
