You are about to give AI the power to ruin lives and careers. Artist, Musicians, People in general who have worked really hard all their lives did not do all that to have their work and their passions be stripped away from them. It is bad enough that there are not many jobs lying around in this country, it is even extremely difficult to get a decent pay for the bills. People have built their entire lives in doing what they have done.

Through the sweat and tears, we crafted things that have made America what it is today. Allow AI to call the shots, you're not just putting workers out of job, you are risking lives to be in dangers! It is very easy to have AI copy a person's voice, and heaven forbid that gets used to incriminate someone on false charges. And with the hate crimes and judicial branch putting innocent people in danger already, you best believe this will happen in more ways than one thinks, thanks to AI. Not only that, put this will be the rise of individuals creating inappropriate images of someone without their consent, and that will lead to be a whole new level of revenge porn.

What happened to protecting you citizens? What happened to hearing the voice of the people that are the very essence of our country's civilization? This action plan is about to do irreversible damage if you ever think about wanting to go with letting AI take control of our very lives. When it should be the very thing helping us! Not just corporations and businessmen. Actual people from the working class, the people who push themselves to earn less than what needs to be have to pay the bills. The ones who want to have time for their kids, be known for their creations, have time for hobbies. The people who are working for your companies, making your product, and the ones who are giving YOU money. Ai should be assisting us, not doing all the work.

You more than owe us, and now the least you could, correction **should** do is DO NOT ALLOW THIS TO HAPPEN. TURN THE DECISION DOWN!
