Greetings,

Through our website and community outreach efforts, [AI World](#) supports the revitalization of businesses in small towns across America. We encourage an action plan that not only addresses the vitality of Main Street America, but also is directed towards those businesses that could be adversely impacted by Artificial Intelligence (AI). We advocate allocating funds to enable a program like Main Street America be employed to help communities that lack the resources to compete with larger competitors that are rapidly adopting AI.

AI World

AI World serves as a comprehensive resource for artificial intelligence (AI), offering a wide array of information, tools, and insights into various facets of AI.

www.aiworld.lat

An effective action plan can include assistance targeting, say, threatened historic Main Street communities, in a manner similar to the work done by Ben and Erin Napier from HGTV when they revitalized several small towns in their popular [Home Town Takeover](#) series. Our action plan advocates finding common AI solutions to enable small town businesses to compete and thrive, enabling and enhancing small town community life.

Home Town Takeover

Ben and Erin Napier Take 'Home Town' on the road in the new HGTV series, Home Town Takeover. In this ambitious renovation series, Erin and Ben lead a team of renovation pros as they takeover and makeover an entire small town — Wetaumpka, Alabama.
