CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

As an author, I strongly object to the use of pirated copies of my books to train AI to write in my style, without my permission.

This has been done to thousands of authors to the detriment of our livelihood and in violation of copyright law.

I see no reason why the US government should prioritize the "rights" of machines over the rights of human content creators.
