Subject: [External] AI Action Plan
Date: Saturday, March 15, 2025 11:05:00 PM

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

This request potentially holds the unintended or possibly intended AI invasion of privacy and theft of personal information from the general public, with no redress of grievances.

I'm a poet, online content producer and blogger.

ChatGPT and Dalle are regularly and thoroughly debunked as producing fake and fake information while presenting it as fact. This is perjury in any court, and were i to undertake such an operation, I would be held liable.

Yet you wish to hold these harmful AI engines harmless from blame while simultaneously stealing information and feeding it to these untested and unreliable technology bots/, while ignoring the very real harm you bring to actual humans.

These are real people whose livelihood and reputation may be irreparably harmed, with no redress or proper payment for intellectual property.

I want it made perfectly clear: I do NOT grant consent for ANY of my present, past or future creations, my writings, my poetry, any of my published work, or any iteration of my online presence to be used without my written and explicit permission and agreed upon licensure, payment, and signed contract, for each and every usage incident, in whole or in part. The permission sought should be antecedent to use in every case.

FURTHER, I DENY IN PERPETUITY THE RIGHT OR REQUEST OF ANY GOVERNMENTAL AGENCY TO USE MY INFORMATION, ONLINE PRESENCE, OR CREATIVE WORKS, IN THIS MANNER. THESE TECHNOLOGIES SHOULD NOT BE ENCOURAGED, AIDED, USED, OR SUBSIDIZED BY THE GOVERNMENT IN ANY WAY.

I further grant NO license or permission for ANY AI technology platform, now present or that may be released in future, to ignore my directions above.

This document is approved for public dissemination. The document contains no business-proprietary or confidential information. Document contents may not be reused by the government in developing the AI Action Plan and associated documents without proper and antecedent attribution, credit, and compensation.
