Hello!

I writing to oppose the AI Action Plan. Here's why:

1. Currently Google uses AI to censor publishers it doesn't like, that's not fair
2. Ad networks currently are kicking out those publishers that use AI-generated content or images (so the industry is policing this matter to protect original content)
3. Copyright protects creators and allows for unique content to be created without fear of stealing (AI steals original content)
4. AI being boosted in this way, hurts small businesses or hobbies, like mine.
5. AI favors big tech and punishes small, unique creators like mine.

Simply put, AI doesn't level the playing field, it makes it incredibly unlevel and throws us small creators into a massive hole.

Thank you for your consideration in this matter!

Terri Rodefer
