Subject: [External] AI Action Plan
Date: Sunday, February 9, 2025 12:54:55 PM

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

1. **Precisely Define the use-cases for using AI** in: Government, Civilian life and Armed forces (on the battlefield etc.).
2. **Develop AI and let it flourish for those precisely defined use-cases only.** Safe-guard against scope-creep for all those defined use-cases.
3. **Ask the question, whether we (USA or human civilization) need to solve for AGI?**
It is likely that we may not.
 1. If we wisely decide to NOT solve for AGI (collectively, as USA or human race), then develop precise safeguarding mechanisms to make sure that AGI is not developed on this planet (Earth). Hopefully, we will do a better job at this than the nuclear non-proliferation treaty/treaties.
 2. If we do decide to solve for AGI (for any reason) then, go big and go fast, with multiple fail-safe mechanisms built-in.
